

Since 1964

Innovation meets future

KHIDEE
ALUMINIUM WINDOW SYSTEM

ABOUT US

A big thing starts at small. It was the year 2007, we took our first step in launching **Vglasstouch**. In these glorious 15 years, we created a benchmark and have won the trust and support of millions of customers with a constant effort towards perfection and innovation creating gratification among our precious customers.

Something new is on its way. We have moved a step ahead to introduce to you all **KHIDKEE**. It is the best service in Aluminium system window, in collaboration with world-class **Geeta Aluminium Company Pvt Ltd**, Mumbai serving the masses since 1960

Today we provide a vast variety of products and services in the construction and building material business. In addition to being a one stop brand for all Architectural Aluminium Profiles, we also provide a complete range of compatible hardware to match & support these products. Geeta Support System is an after sales service that has seen great success with our clientele.

We are committed to provide trendsetting services and leave an everlasting imprint in the world of aluminium services!

In our quest to remain an outstanding brand, we are constantly innovating and upgrading with the latest international technology standards.

KHIDEE SERIES

An entire range of Aluminium System Windows with the depth of profiles running from 2mm to 50mm to suit different conditions of opening sizes, wind load, smooth operability and affordability.

Each system window with its unique properties shuts out disturbances like water, mosquito, noise and dust thereby good functionality and safety filling your home with complete comfort!
